The Economy of the Commons

See *P2P Value* [directory](#) for more areas

Objective

*To advance the Commons Collaborative Economy
for more enriching, sustainable and socially just
economic relationships*

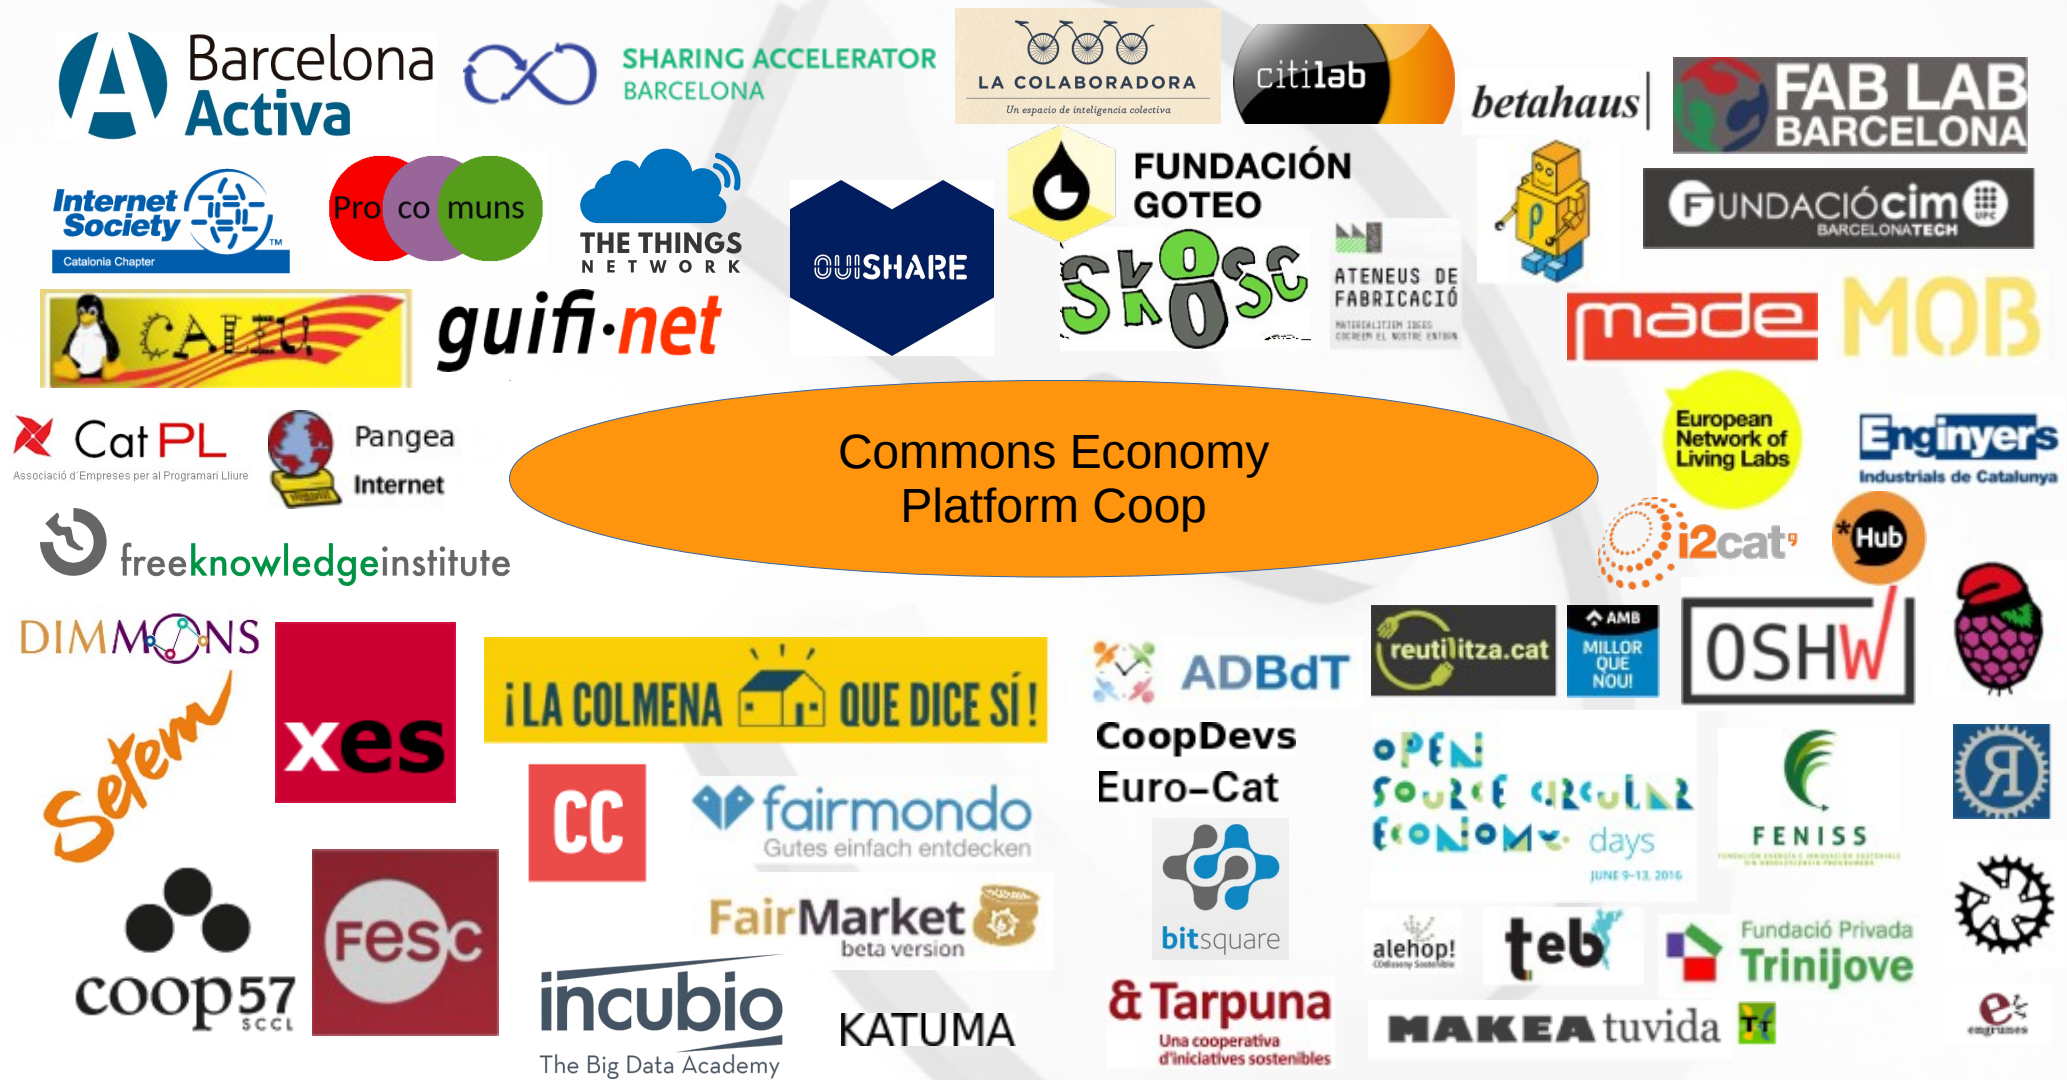

*through the development of products, platforms
and services to support bottom-up, self-managed
communities,*

*based on sharing knowledge, free technology,
digital platforms and circular economy.*

Core values

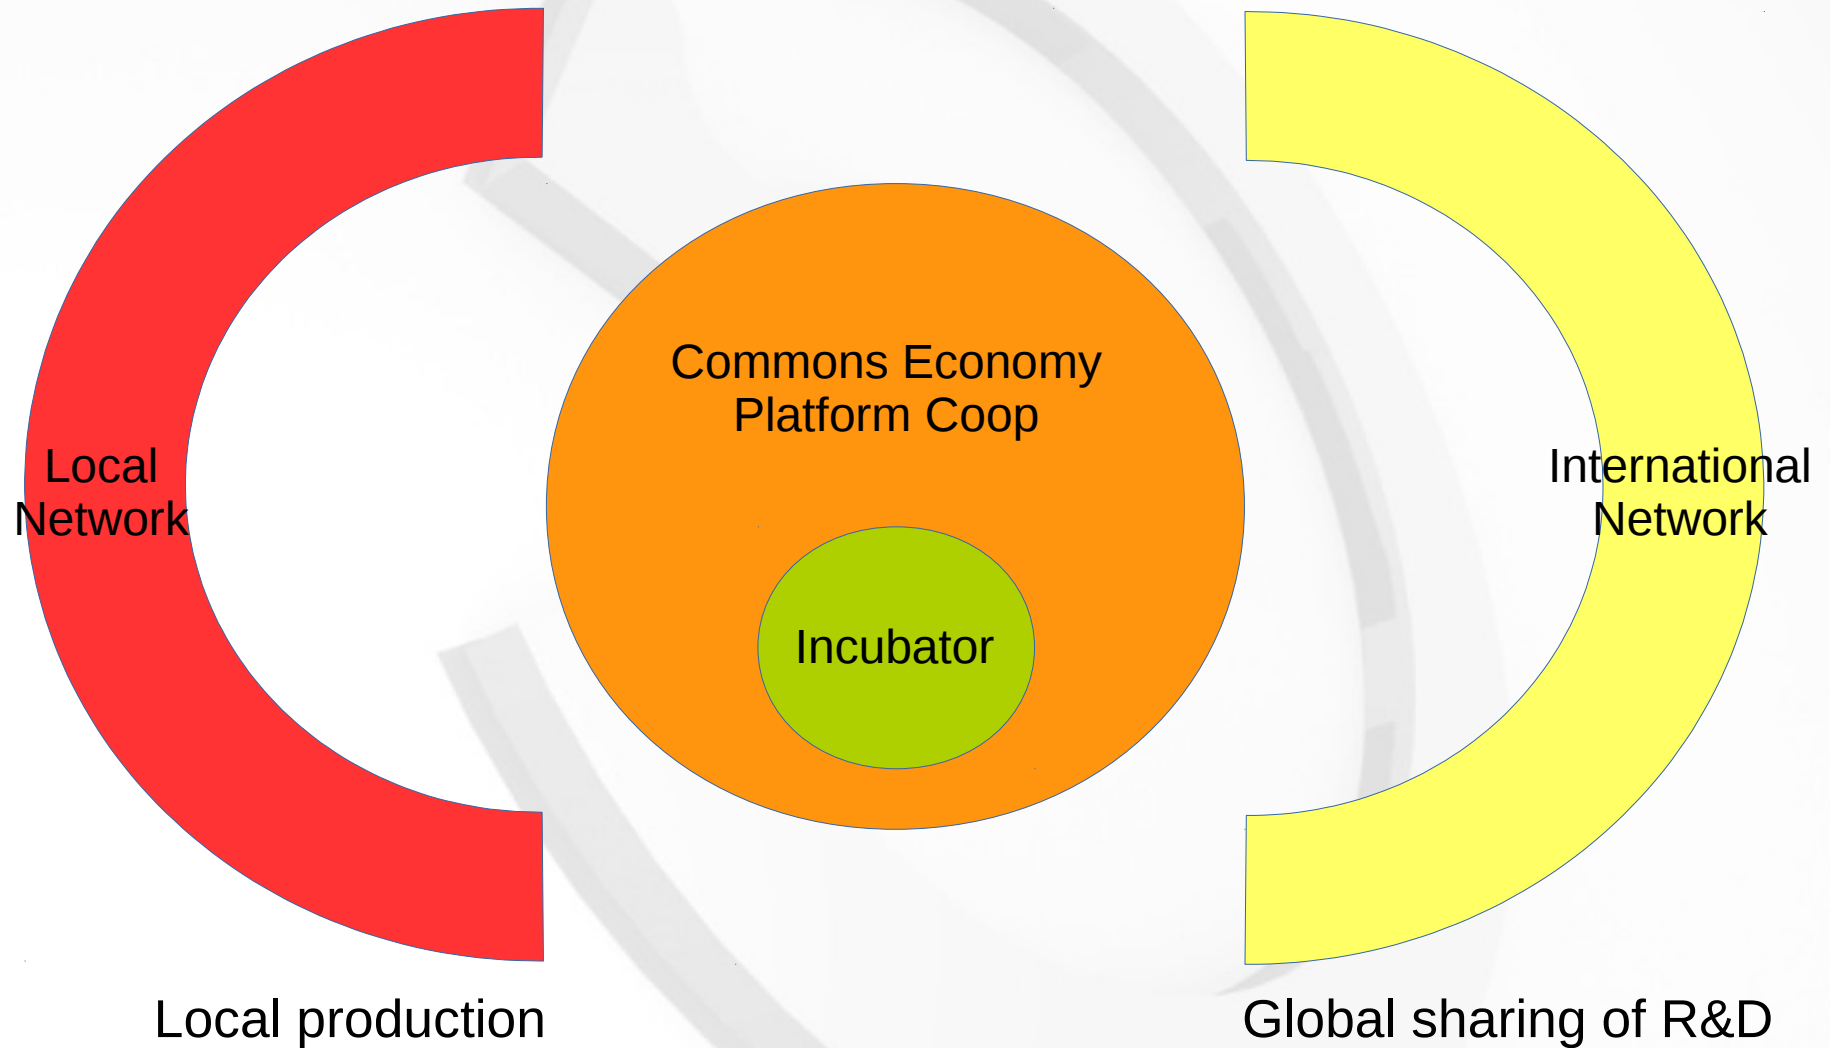

- Freedom
- Responsibility
- Wellbeing
- Solidarity and mutual support
- Equity
- Diversity
- Meritocracy
- Transparency
- Privacy
- Sharing and cooperation
- Consensus-based
- Direct relations
- Sustainability
- No political affiliation

A community of communities

Global – Local network

Proposal: Commons Economy Platform Coop

- A coop co-founded with social innovators and commons-oriented actors
- An inclusive platform for anyone to start their projects in the economy of the commons
- An invoicing and salary platform for individuals and groups to flexibly generate their income
- An experimental platform to apply various innovative collective management schemes
- A social transformation platform from production to consumption, from renting to sharing and reuse

Self-Manage Your Economy

	Cost	Rights
Person → co-owning member	10-20 €	1 member = 1 vote to participate, consume, share, reuse
Co-owning member → invoicing co-worker	40 €	+ to sell, invoice, declare costs, receive salary
Group → group / business unit	80 €	+ manage members, distribute earnings
Organisation → associate partner	50-100 €	Offer services to its members

Your Economy

+ Revenue / Invoices

- 5% management costs*

- Optional: 5% recommended for co-budgeting

- your declared costs

+

= Salary + Income Tax & Social Security

*) costs of administrative, fiscal management, collective insurance

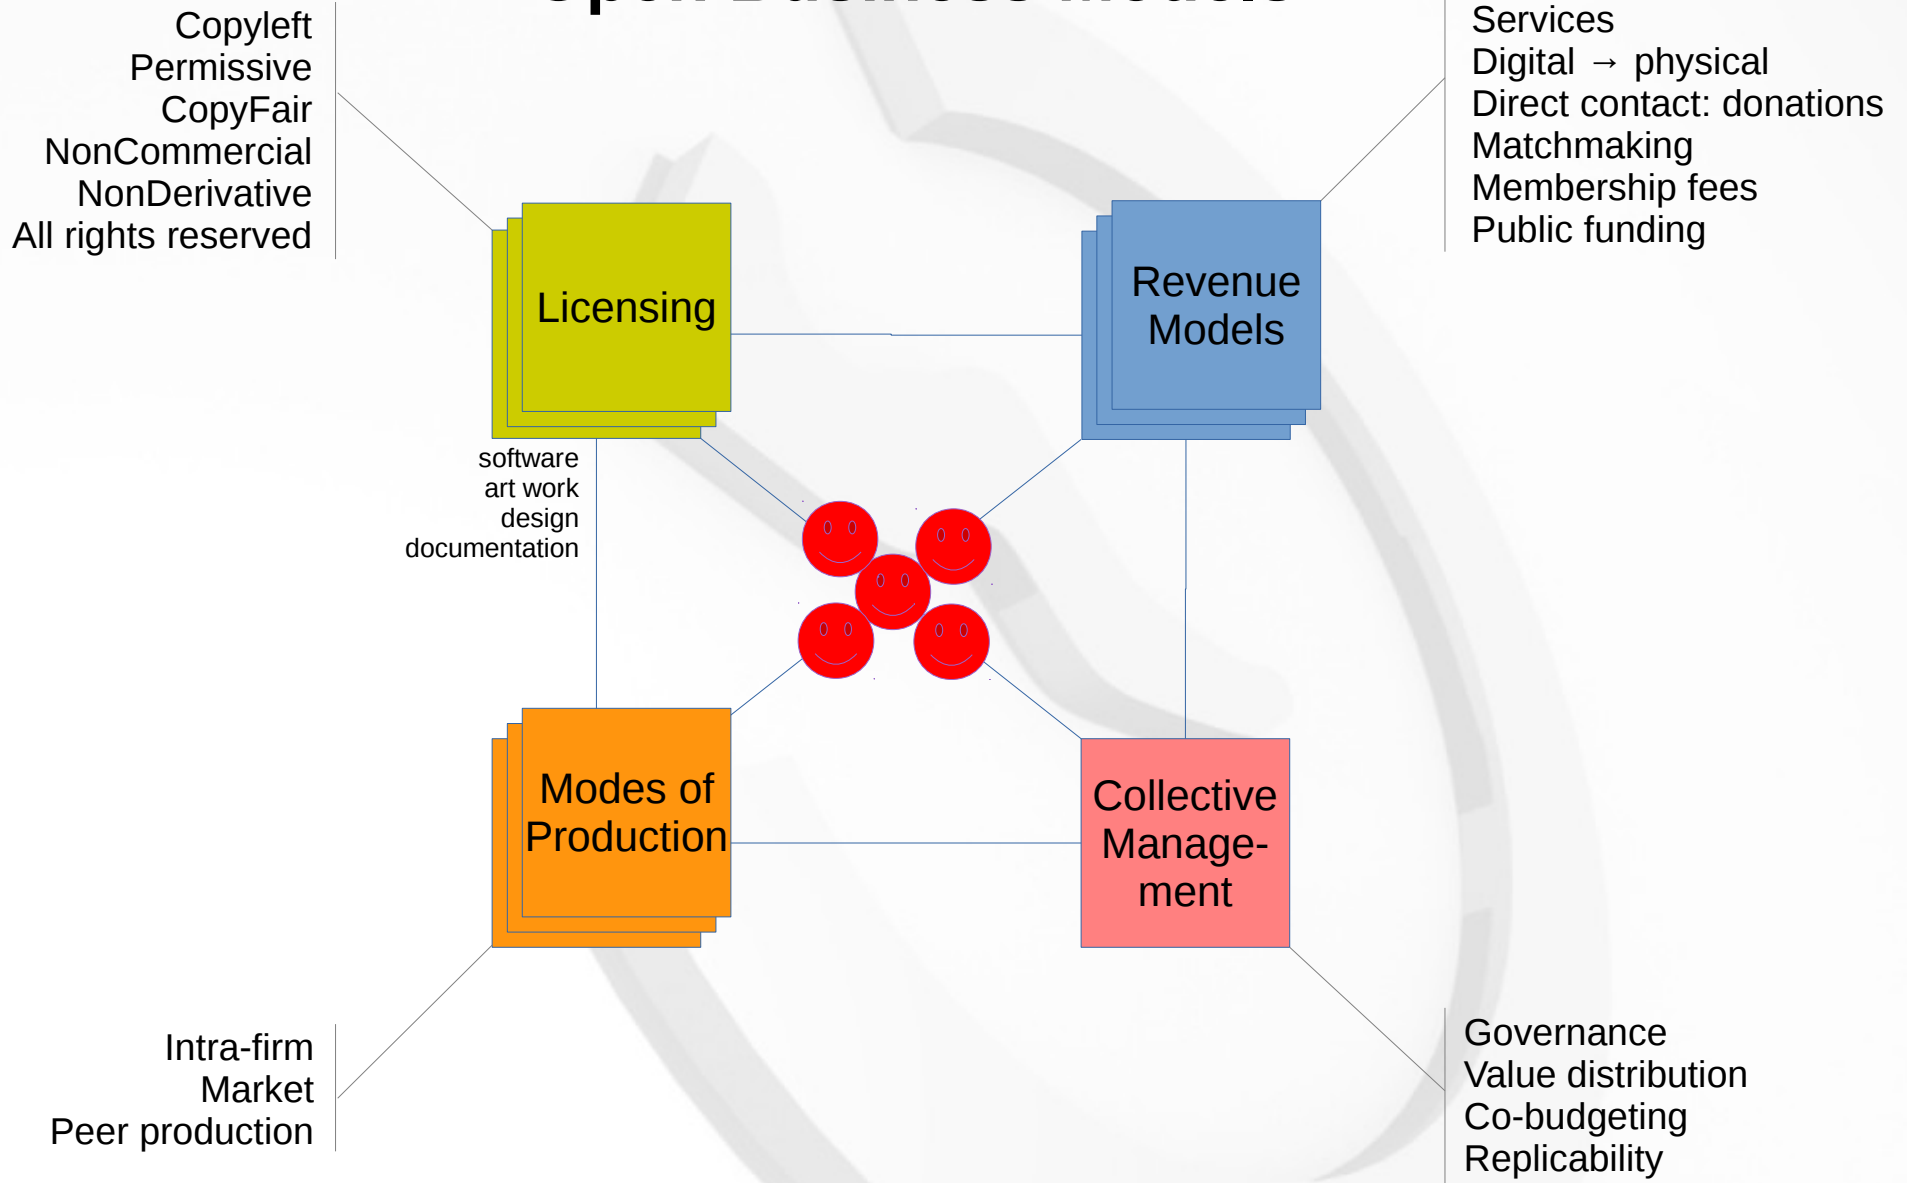

Golden Rule:

Do unto others what you want them to do unto you
(recommendation)

Silver Rule:

Don't do unto others that you don't want them do unto you
(implemented in internal reglementations)

Open Business Models

Comparing “Sharing Economy” actors

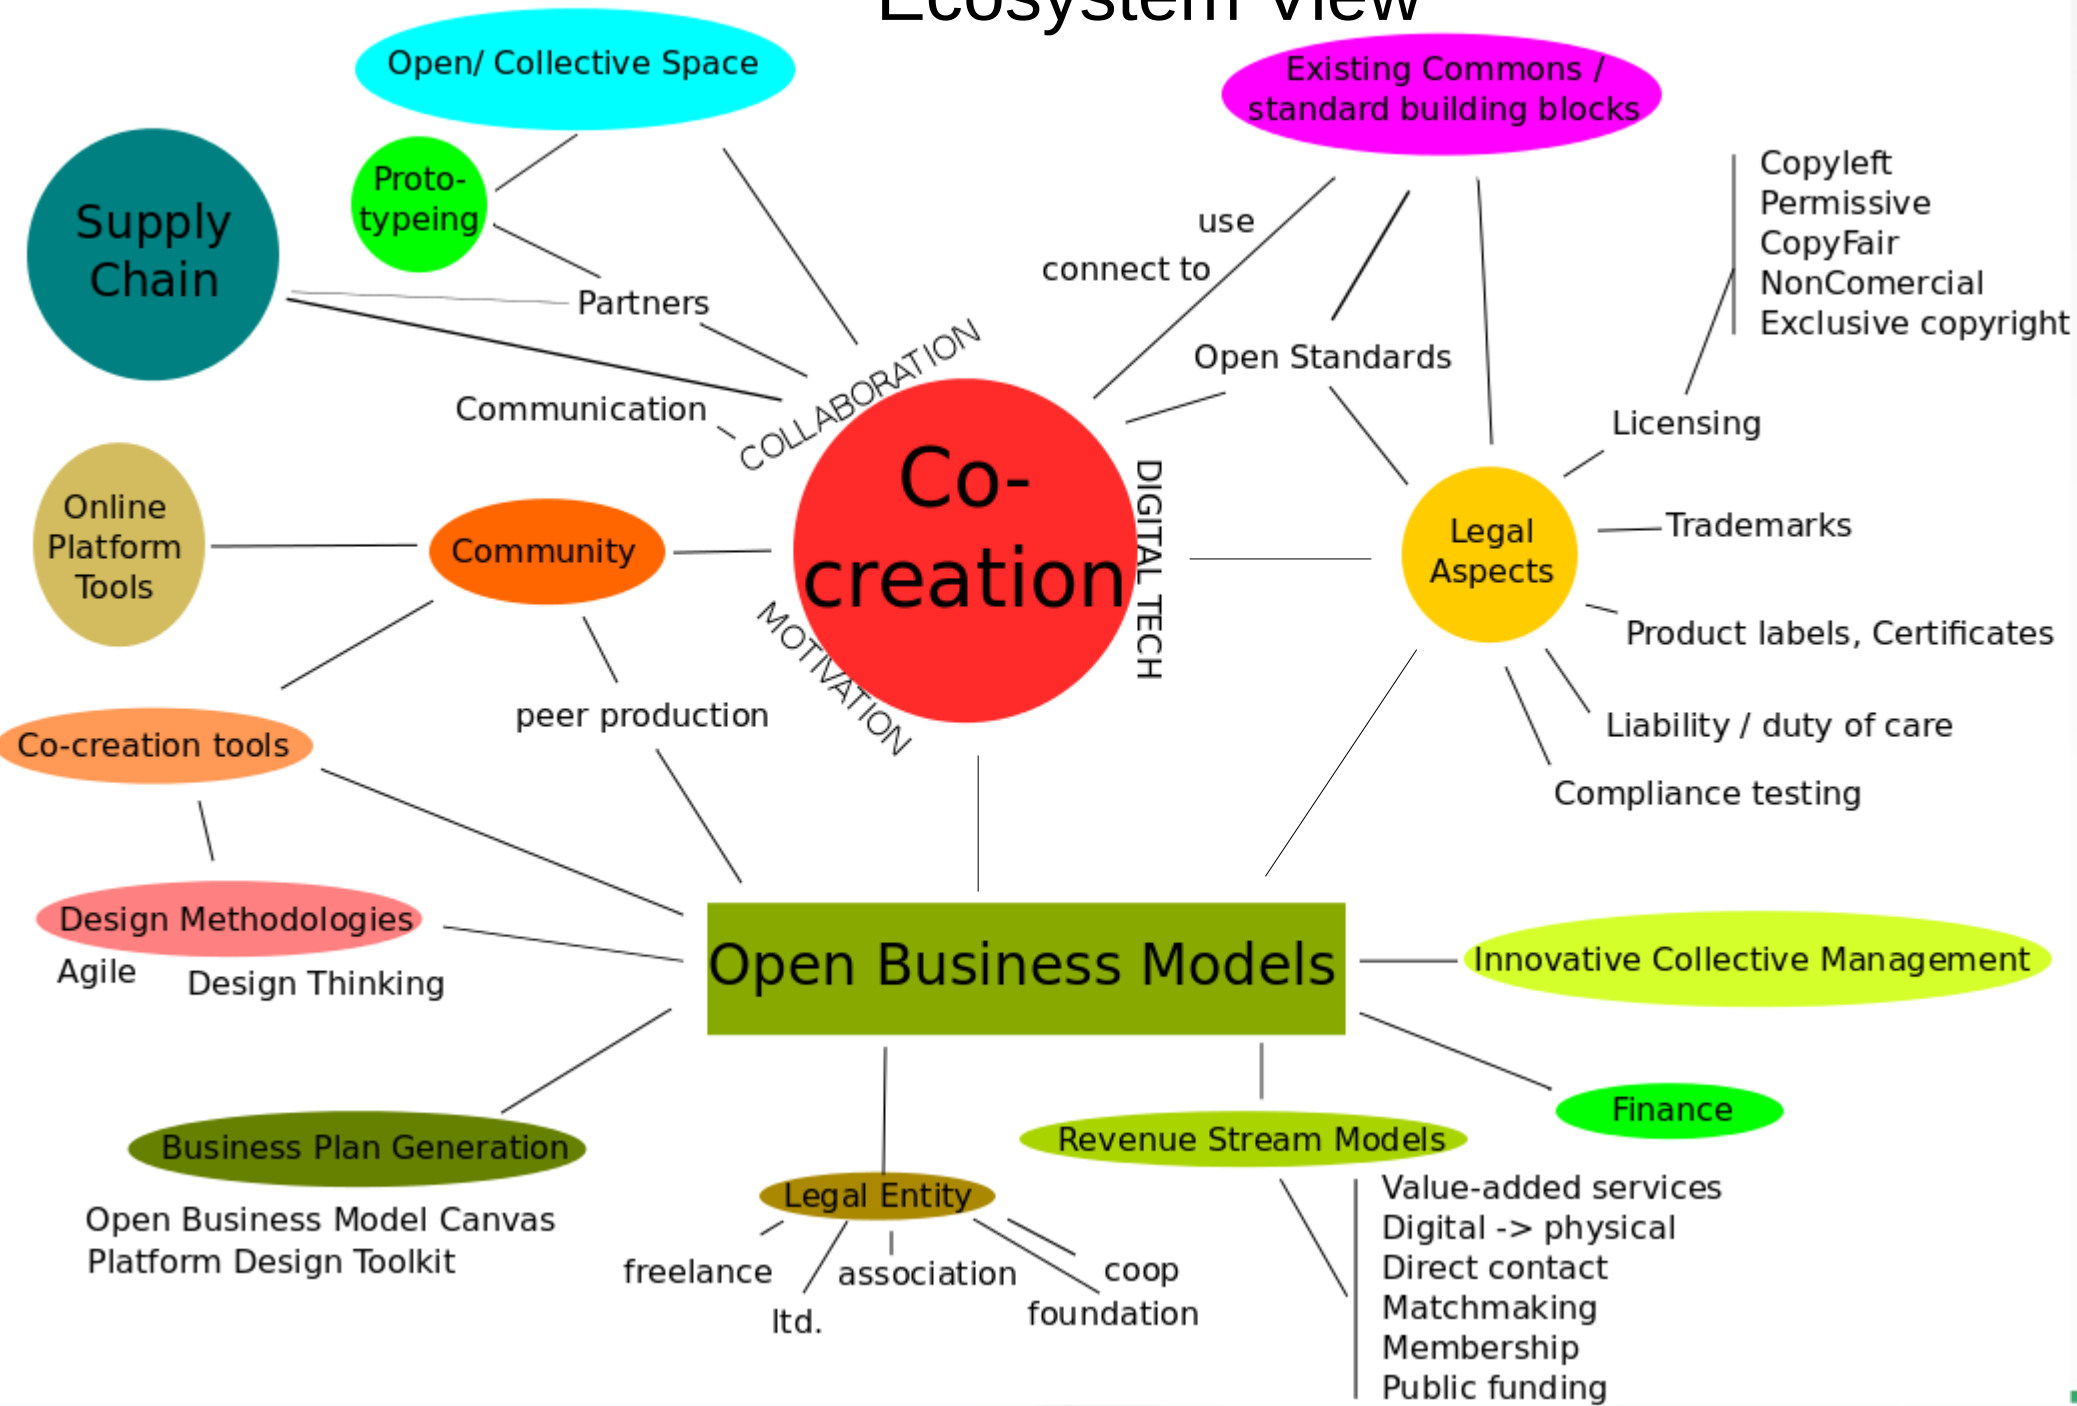

activities facilitated for the members	couch surfing	SocialCar	Som Mobilitat	Som Energia	Som Connexio / Eticom	Loconomics	Cooperativa Integral Catalana	FairMundo	FairMarket	Timebank	Consumption coop	eReuse	GRRR
production				x	p	x	x						
sale						x	x	x	x				
rent		x	x				x					x	
consumption				x	x		x	x	x		x	x	
sharing	x		p				x			x		x	x
Reuse							x					x	x
Recycle							x						x

Innovative collective mgt. models

- **Sensorica** - revenue distribution over contributors to R&D sensor community
- **Enspiral** - commons oriented business network
- **Cooperativa** Integral Catalana
- **Calidoscoop** / Economic Activity Cooperative
- **Guifi.net** – cost compensation
- **Backfeed** - decentralised, blockchain based
